Class Outline:

Description:

This course is designed to teach you how to customize your Windows SharePoint Foundation 2010 Web site, beyond the Team Web site template, to meet the specific needs of your users. Students will learn to add components to a site, to apply site themes, and to change site components and navigation options. They will then learn to edit pages in SharePoint Foundation and SharePoint Designer, manage content controls, and modify RSS feed settings. Finally, students will learn to use workflows and site galleries. This course assumes that you've completed the prerequisite course Windows SharePoint Foundation 2010: Basic or have equivalent experience.

Table of Contents:

Unit 1: Adding components

Topic A: SharePoint libraries

Topic B: SharePoint lists

Topic C: SharePoint pages

Unit 2: Changing the look and feel
